

# SEPORA- Sectorisation Postojna Rijeka Action

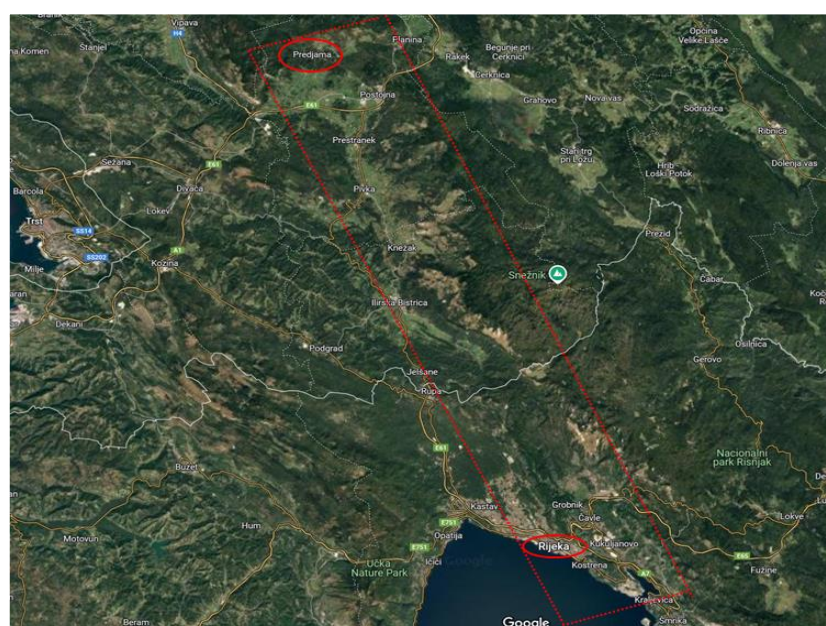

HR/SI – City of Rijeka  
partnering with Municipality of Postojna

## CROATIA / SLOVENIA

### PARTNERS

City of Rijeka

Municipality of Postojna

### OBJECTIVES

1. Develop a geographical sectorisation framework
2. Enhance incident management efficiency
3. Strengthen cross-border cooperation and formalise collaboration

### RESULTS

Sectorization Maps

Cross – Border Communication plan

Draft agreement on mutual assistance

### KEY LESSONS

The project demonstrated that coordinated, data-based planning can bridge administrative borders and improve crisis response efficiency.

Through this project, we have created stronger and more resilient borders in this European region.

- Sepora results will be integrated in local and regional emergency plans
- Expanding cooperation to additional local government units and inclusion in national level strategies for civil protection
- In the future digital platform will be developed which will enable easier access to sectorisation maps
