PARTNER

EGTC Galicia Norte Portugal

OBJECTIVES: To improve Cross-Border Cooperation and its governance through strategic planning, taking into account the global, European and National changing geopolitical context and the ongoing climate and digital transitions, for a more resilient Galicia Norte Portugal Euroregion.

OUTPUTS

- A mid-term review of the Joint Investment Plan (JIP) GNP 21-27;
- A Cross-Border (CB) strategy for the GNP Euroregion for the period 25-28;

Both are new tools that the GNP Working Community will use under its mandate for improved governance and resilience of the Euroregion Galicia Norte Portugal.

The strategy will be the guideline for CB Cooperation in GNP in the short and mid-term and it will also establish the basis for post 27 Cross Border Cooperation.

KEY ACHIEVEMENTS

Strategic Cross-Border Cooperation is crucial for unlocking regional potential and strengthening territorial cohesion within the GNP, Spain and Portugal and the whole EU.

The project has contributed to foster and raise awareness about CB cooperation among institutional stakeholders and adapt it to a new global geopolitical context to have a more effective and efficient CB initiatives for a more resilient GNP territory, better prepared for new challenges.

The Interreg programs, when regionally managed, are the most suitable way to promote CB cooperation in GNP. These programs are really aligned with regional and local needs and potential.

Participatory process are not just a great tool to get feedback from stakeholders but also a time to collectively and individually think about a common future of Cross -Border Cooperation.
